"A Doctor's Pilgrimage" — An autobiography by Edmund A. Brasset, M.D., is a warm-hearted humorous story of a courageous young doctor in Nova Scotia.

Young Dr. Brasset's ambition was to become a brain surgeon, but he lacked the money and went instead to Causo, Nova Scotia, as the sole doctor for 2000 people, remote from the world. And so begins the story of doctor's pilgrimage, that describes the early trials and travels of a warm, human and completely delightful general practitioner.

Well Attended

New Styles Shown At Annual Fashion Show

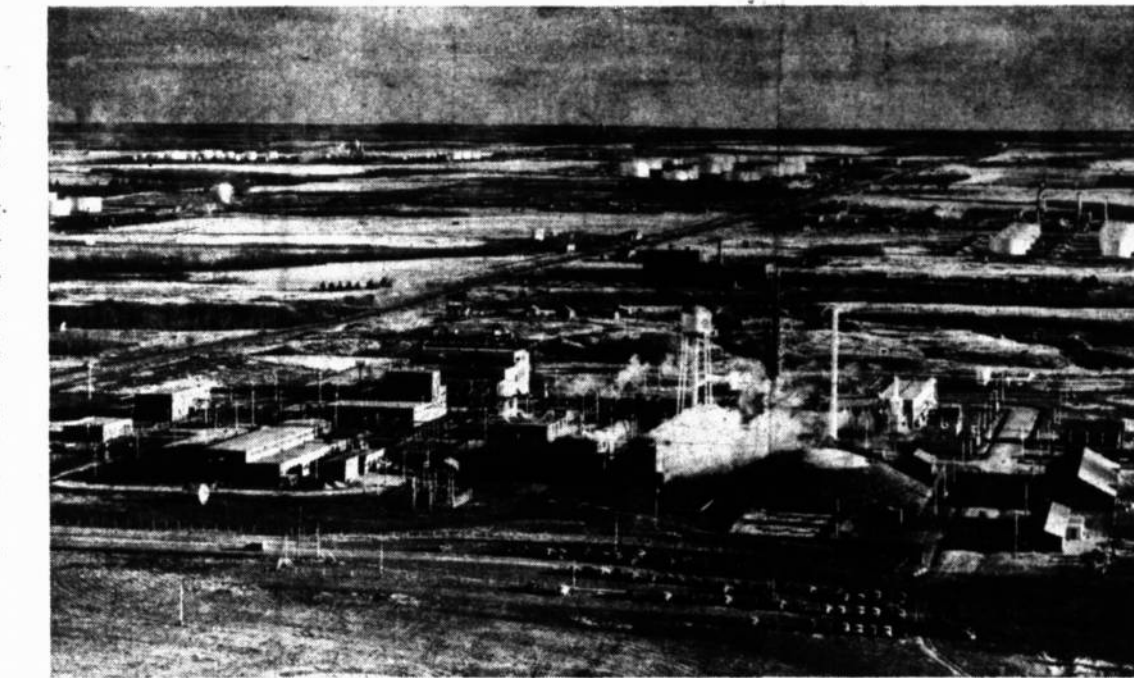

Sponsored by the St. Aldhelm's Ladies Guild, the annual fall fashion show, tea and bazaar was held in the Legion hall Saturday afternoon and despite the busy harvest was well attended.

Once again beautiful ladies and childrens wear, kindly shown by the Betty Ann Ready-to-wear shop, drew many appreciative comments. The ladies' ensembles showed the new soft silhouette, more conservative and completely feminine, the new H-line, featuring the lowered waist and round look, and the trumpet skirt, with Spanish influence, were among the styles shown.

Materials probably drew as much attention as the radically different modes. All materials were of Canadian manufacture and in over 90 garments shown were lovely, soft woolsens, viscose, nylon, silk cords, washable woolsens and winter cottons. Trim used was metallic and combination of several different materials.

Lovely warm coats in all the lovely autumn shades as well as the ever popular blacks, wines and navy; strikingly beautiful cocktail gowns; casuals and the Skirt and Sweater Parade, featuring the Pride O' the Glen sweater and many, many other outfits were displayed.

Children's school and sport clothes, in all the lovely and practical materials, in reds, blues and golds, were shown by small models who proved themselves truly feminine in their love of pretty clothes.

Edmonton, Oct. 14— The \$15,000,000 Edmonton polythene plant of Canadian Industries (1954) Limited was officially opened this morning by Hon. E. C. Manning, Premier of Alberta, at a ceremony attended by His Honor J. J. Bowen, Lieutenant Governor of Alberta, and representatives of the federal and provincial governments, the city of Edmonton, the municipal district of Strathcona, and of education and business. Representing Canadian Industries

(1954) Limited was H. G. Littler, manager of the company's plastics department, and S. T. Jones, Editor of the polythene plant, construction of which was started by the Poole Construction Co. of Edmonton in early 1952, was completed by the end of 1953 and is the first plant in Canada to manufacture this versatile plastic which was discovered in England in 1933 and came into prominence during the last war as an important defence material. Manufactured here by the polymerization of ethylene de-

rived from the ethane in Alberta natural gas, polythene is also made in Great Britain and in the United States and has attained world-wide importance as an industrial material. It is used in the manufacture of pipe, wire and cable insulation, containers, transparent film, "squeezeable" bottles, toys, and many other other applications. World production has increased at a phenomenal rate since the end of the war and, in the United States alone, the present productive capacity is 75,000

tons a year. Canadian consumption is expected to hit 12,500 tons by 1957.

The forerunner in Canada of a new branch of the chemical industry, polythene manufacture is a difficult industrial process and involves some of the highest pressures known to have been used industrially — about 14 tons per square inch. A secondary industry based on Alberta's oil and gas production, the plant is a contribution to the diversification of the province's economy.

Cradle Roll Mothers Meet

Seventeen mothers and 23 children of the Cradle Roll Class of the Church of Christ, enjoyed an afternoon tea at the Church study on Friday, when Mrs. Calvin Hollister, Cradle Roll Superintendent, entertained.

Mrs. James Chapman presented the devotional and Mrs. Gordon Gardener very capable rendered two solos to "Mother".

A very tasty lunch was served at the close of the afternoon by the hostess assisted by Mrs. Nelsie Robertson and Mrs. Gordon Gardener.

man and completely delightful general practitioner. The tragic, the pitiful and often funny incidents of this warm-hearted tale reveal how, through the author's great courage and humor, what could have been a grim battle became in reality a very happy story.

Combining Well Advanced

Harvesting Soon Finished If Dry Weather Continues

Although the weather has remained somewhat cool and cloudy this past week it has remained dry and has allowed the long-delayed harvest to finally get really rolling.

In the south and east parts of the county combining again got under way last Thursday and is now pretty well completed. Lomond, Milo, Champion and Carmangay districts. All report that most farmers have finished.

In the immediate Vulcan district most combining will be finished up by Saturday of this week if the weather remains dry. In the northern part of the county, crops are a little later but fine weather would allow farmers to complete the harvest early next week.

Although little grain has been hauled as yet, it is reported that most of the wheat in the county will grade 3 or 4 due to frost and bleaching. Demand for granary lumber is good with many farmers erecting new granaries or combination machine shed-granaries.

Two-bushel Quota Expected
The Canadian Wheat Board announced Tuesday that a general quota of two bushels per cultivated acre will go into effect at individual stations as space becomes available above that needed for the initial 300-bushel quota.

A special 1000-bushel quota on oats has also been reinstated in addition to the initial delivery quota, as enough oats had not been delivered to meet the Board's immediate market needs.

The 1953-54 barley pool will be closed out immediately, according to an announcement made Wednesday, with the final payment averaging 9.7 cents a bushel. On barley deliveries, farmers have already received 96 cents a bushel, basis No. 3 cw six-row barley, delivered to the Lakehead or west coast. This makes a total of about \$1.06 a bushel, less freight charges for barley delivered in the past crop year.

The 1953-54 oats pool will also be closed out immediately, but no announcement regarding the amount of the final payment has been made.

Wedding of Interest At High River

Rev. J. S. Sorechan officiated at the recent wedding in High River when Darlene Margaret, daughter of Mr. and Mrs. L. J. Marshman of Royalties, Alta., became the bride of Robert James Hampton, son of Mr. and Mrs. R. L. Hampton of Longview, Alta.

Gladioli formed floral decoration for the ceremony at which the bride was given in marriage by her father. Her gown of Rose-pointe lace and nylon tulle was styled in strapless mode with halter neckline, embroidered with seed pearls and bugle beads, and long-sleeved jacket of lace lined with satin. Matching lace trimmed a peplum atop the bouffant skirt which was worn over crinolines. Her finger-tip veil of silk illusion misted from a jeweled headress and she carried 30 American Beauty roses interwoven with satin ribbon.

Full-skirted ballet-length frocks of net were worn by the matron-of-honor, Mrs. Philip Murray whose gown was in pink. Miss Marjorie Marshman and Miss Ruby Dease, who wore blue and yellow respectively. They wore sequin headresses and carried carnations tinted in pastel shades. The flower girl, Pamela Weeser, was frocked in mauve nylon with matching headress and carried yellow carnations and daisies.

Walter Jackson was groomsmen and ushers were Larry Barkley, Philip Murray and Alan Johnson. J. Pickersgill played the wedding music.

A reception was held at the Longview Community hall where a white and pink motif was carried out in decoration of gladioli, sweetpeas, carnations and snapdragons.

Peter Bowie, grandfather of the bride, was Master of Ceremony, and called upon Urb Doughty of Longview, who proposed the bridal toast.

For a wedding trip to Great Falls, Mont., the bride donned a grey bunny wool frock with purple accessories and wore a corsage of roses. Mr. and Mrs. Hampton will reside in Royalties.

Failure is the foundation of success and the means by which it is achieved. Success is the lurking place of failure; but who can tell when the turning point will come.

Black-Placatka Wedding Rites

A quiet wedding of interest at Edmonton and Vulcan took place at the home of Mr. and Mrs. E. G. Hansell on Thursday, Oct. 7, when Marjorie Hazel Placatka became the bride of John Edward Black. Mr. Hansell officiated at the early evening ceremony for the daughter of Mr. and Mrs. C. Placatka of Cherrill, Alta., and the son of Mr. and Mrs. P. Black of Holmfild, Man.

For her marriage the bride chose a tailored dressmaker suit of navy blue gabardine, complemented by a small white straw hat and white accessories. Her corsage was of red sweetheart roses.

Miss Rita Martin of Vulcan, the bride's only attendant, was dressed in a pale blue dressmaker suit with accessories to match and wore a yellow carnation corsage. Carson Love of Vulcan was groomsmen.

Following the ceremony the couple left for Cherrill for a short honeymoon and a reception which was held on Oct. 8.

The young couple will live in Vulcan, where the groom is a member of the Advocate staff.

First Aid Talk At H & S Meeting

First Aid demonstrations and Emergency Treatment will be the program topic for the meeting of the Home and School Association on Tuesday, Nov. 19, Lundy Findlay will present a practical First Aid demonstration and Dr. Tompkins will speak on Emergency treatments.

Following these there will be a question period, during which time both Mr. Findlay and Dr. Tompkins will answer questions pertaining to these subjects.

All parents are invited to attend. Coffee will be served during the social hour following the program.

Plan Kindergarten

Starting its fifth regular year of activity, Vulcan's one day kindergarten school will begin next Wednesday morning, October 20, at 9:30 under the leadership of Mrs. J. R. Chapman and Mrs. George DeGeer.

The school will include all children from 3 to 5 years old who are not enrolled in the full-time kindergarten school which is held on the other four days of the week.

Sponsored by the Vulcan Church of Christ, the school will meet again this year in the study of the church.

Successful Car Bingo Will Aid Swimming Pool

The weatherman co-operated and the Vulcan Lions Car Bingo, held Wednesday evening of last week, was a great success, with four cars, a TV set and five other excellent prizes going to lucky winners.

Following cold, wet weather which had brought harvesting to a standstill, the day was bright and warm. Two days later harvesting was again under way. The combination of warm weather and no harvesting yet possible was a big factor and the official paid attendance of 2,246 persons represented not only Vulcan and district but nearly every town in this part of the province, as well as such far-away points as Calgary and Drumheller.

Although final figures are not yet available, the Lions Club expects to clear about \$2,600. This will be used in meeting the expense of extensive alterations and improvements now being made at the Memorial Swimming Pool, as well as helping to defray the annual deficit of about \$1,200 which is incurred by operating the pool at a high standard and yet keeping admission prices at a minimum figure.

Four cars were given away — on the basis of one car for every 500 paid admissions — and the winners were as follows:

1. Califfe Clella of Gleichen.
2. Larry Umschled of Milo.
3. Robert Doyle of Champion.
4. Split between Elmer Mack of Nanton and Emma Root of Lomond.

Other prizes offered were won as follows:

1. Sunbeam Mixer — Phyllis Pitlarz of Lomond.
2. Two TV Swivel Chairs — Albert Starlight of the Sarcee Reserve, Calgary.
3. Stevens Shotgun — Joe Pyshinski of Claresholm.
4. Electric Floor Polisher — Oliver Perry of High River.
5. Set of Silverware — Lester B. Jackman of Nanton.

The only prize to be won by a Vulcan resident was the TV Set, which was drawn for as a special pre-sale ticket prize and was won by Mrs. J. F. McNarland of Vulcan.

The pre-sale of tickets was very successful and the Lions wish to extend their thanks to all those who are not members of the Lions Club and who did such an excellent job of selling tickets. Thanks is also extended the members of the Vulcan Canadian Legion who assisted the police in parking of cars and directing of traffic.

Dr. G. H. Gibb President

Elect Officers and Conveners Of Vulcan Public Library

Dr. G. H. Gibb was elected president of the Vulcan and District Public Library at the annual meeting held Thursday, Oct. 7.

Other officers elected were Miss Marion MacKay, secretary-treasurer; Mrs. Mabel Rea, convener of the management and finance committee; Mrs. R. Gold, convener of the book selection committee; and Mrs. Jack Marshall, convener of the publicity committee. Conveners of the various committees will select their own committee members.

Thanks and appreciation were extended the retiring officers and members of the various committees for the excellent job done during the past year, and to all those who contributed financially or who helped with the work of making the old town office into a pleasant, attractive library.

When the sign on the building has been repainted to read "Vulcan and District Public Library" the work of renovation will be completed and the building will be easy to find.

Eight Years As Church Organist

Mrs. W. W. Almond, organist at the Vulcan United Church for the past eight years, was presented with a new version Bible at the conclusion of the evening service last Sunday as a token of appreciation of her services. The presentation was made by William Munro,

Mrs. R. McCartney Dies at Calgary

Mrs. Rebeka McCartney, of 909 7th Ave. W., died in the General Hospital at Calgary, Saturday.

Born in Rasharkin, Ireland, Mrs. McCartney came to Calgary in 1927. She lived in Banff, Pincher Creek and Vulcan and finally returned to Calgary in 1934. She was a member of the First Baptist Church and a member of the Allyn Group of the church.

She is survived by her husband, Robert H. McCartney, Calgary chiropractist; two daughters, Mrs. Gordon E. Clayton of Vulcan; Miss Sadie McCartney, RN, Pouce Coupe, B.C.; two sons, Bert and Bill of Calgary; five sisters, Mrs. Marshall Lough of Hanna; Mrs. Mary Cunningham, Deep Cove, B.C.; Mrs. Jean Campbell, Calgary; Mrs. Andrew Linton of Tuxford, Sask.; Mrs. Louisa Miller of Ballymena, North Ireland; and six grandchildren.

Services were held at Loyden's funeral home Wednesday at 3:30 p.m. with Rev. Dr. J. Gordon Jones, OBE, officiating. Burial was made in Queen's Park cemetery.

Activities At United Church

A service of special interest is to take place at the Vulcan United Church next Sunday morning Oct. 17, when men of the Letitia bridge A.O.T.S., a fraternal organization, will meet with men of the community at 9 a.m. for breakfast in the banquet room and at 11 a.m. will conduct the worship service.

Reports of the General Council will be given and an outline of what the A.O.T.S. organization works for in community life. Representatives from Pincher Creek, Taber and Barons are also expected to be present.

The High River Presbytery will meet in the Vulcan United Church this coming Tuesday, Oct. 19, when ministers and lay workers from as far north as Turner Valley and south to Granum will meet to discuss the affairs of the district.

Morning sessions will commence at 9 a.m. and there is to be a public supper meeting at 6:30 p.m. Rev. John Sorechan of High River is chairman of the Presbytery.

member of the Board of Session, on behalf of the Church.

Mrs. Almond has retired from the post of organist and the new organist will be Mrs. D. S. Paris.

Highlanders Offer \$100 Scholarship

Announcement was recently made that a scholarship of \$100.00 will be awarded annually to the member of the Calgary Highlanders (Militia) who attains the best high school standing.

To qualify, the candidate must: (1) Produce official results together with a letter of recommendation from his school principal.

(2) Satisfy the Highlanders' Scholarship Committee that he intends to continue his studies.

(3) Have a satisfactory record of training and attendance with The Calgary Highlanders.

Application will be accepted following the school term each year and must be in writing and accompanied by supporting certificates. Application should be in by the last Wednesday in September of each year.

The Scholarship Committee is comprised of Major W. H. Powell of Calgary and Major R. C. R. Munro of Vulcan. High school students who are members of "A" Company, which has platoons at Vulcan, Milo, Champion and Carmangay, should direct their applications to Major Munro at Vulcan.

Enforcing Hunting Regulations

Reports in other weekly papers of the province indicate that certain regulations of the Migratory Game Laws are being very strictly enforced this year, with many hunters being heavily fined, as well as losing their guns for a year.

Failure to purchase hunting licenses and the carrying of loaded guns in cars are the two law infractions that the game wardens are apparently really cracking down on, and there have been quite a few cases of shooting game out of season.

For the guidance of local nimrods, here are a few of the regulations:

IT IS UNLAWFUL

—At any time to have a loaded shotgun or loaded rifle in any vehicle of any kind, or to discharge any such shotgun or rifle from any vehicle, or to shoot along or across any Main or Secondary Highway.

—To hunt any Game Bird with a shotgun of any description which has not been permanently plugged to reduce the capacity of said gun to a maximum of three shells, in the magazine and chamber combined.

—To use any rifle or firearm firing a single bullet or ball cartridge in the hunting of any Migratory Game Bird.

—To hunt or trap over any enclosed lands that are posted with "No Shooting" signs, without having first obtained the consent of the owner or occupant thereof.

Glad to see the town council is tentatively planning to have all the streets gravelled next year. Maybe something can be worked out at the same time for dust control. It's worth a little thought and investigation.

Our population in the county must be rising. Lomond school is bursting at the seams and a four-room additions is a necessity.

We finally have a stretch (very short) of black-top on Highway 23—from Barons south. It's been a poor year for road-building, but weren't the contractors somewhat late starting on this job? Signs warning of construction work were in place a month before a crew showed up.

Several residents of the Little Bow area west of Vulcan have identified the picture shown above as being taken in 1916 at the bend in the Little Bow river 12½ miles directly west of Vulcan. The spot in which the old log cabin is seen above is now the approximate location of Herb Messerli's buildings and

it is recalled that the part of the river shown used to be a popular spot for pike fishing. The old swimming hole was located in the part of the river at the upper right, at the bottom of the wooded hill. The Eckford Horse Ranch occupied the location in 1916, according to our informants.

We have so much to protect

This Canada of ours — is ours to enjoy at a price — the price of constant alertness.

We cannot take for granted our freedom to worship, to vote, to educate our children, or to order our home life as we please. All these freedoms are ours only as long as we are willing to do everything necessary to maintain and defend them.

All honour then to the Canadian Soldier — the steadfast guardian of all our free institutions. Without men like him, the Canada we love might cease to be.

We have so much to protect. Let us all do our part, without let-up, whatever way our duty lies.

SERVE CANADA AND YOURSELF IN THE ARMY

To be eligible you must be 17 to 40 years of age, skilled tradesmen to 45. When applying bring birth certificate or other proof of age.

Plant Your Spring Bulbs Now

When the grass turns green next spring and your garden is a panorama of color you'll be glad you planted those bulbs this fall.

All of the bulbs that flower in the spring must go into the soil before winter — the bulbs included are tulips, crocus, hyacinth, scillas, daffodils, narcissus. Look for sound, good sized bulbs free of soft spots or discoloration — in general the largest grade of each bulb type gives the biggest flowers and the best quality.

Give some careful consideration to your choice of a planting spot — plant the bulbs where they'll get the sun in the early spring. You'll want to choose a background that will show off the blooms to best advantage — evergreens and flowering shrubs make beautiful backgrounds.

The soil must be properly prepared too. Spade the planting spot well to break up the big clods; add a soil conditioner, sand or peat to the soil before planting. Rake the surface smooth. The soil you choose must be well drained or the bulbs will rot.

The depth of planting depends on the soil type and the kind of bulb. You will plant your bulbs a little deeper in sandy than in heavy soils. Tulips should be planted at a depth of 5-8 inches, hyacinths 5-6 inches, crocus 3-3½ inches, daffodils 10-12 inches. The bulbs should be placed a distance equal to twice the diameter of the bulbs apart i.e.: both tulips and hyacinths will be set 3-5 inches apart.

Don't mix bulbs of different varieties in the same clump. Plant bulbs of the same type together when you have a row of several varieties. Stake the clump at planting time to mark the variety.

If bulbs get crowded you should divide and replant them in the fall. Being too closely crowded weakens the bulbs and results in small blooms or none at all.

To prevent heaving of the ground from alternate freezing and thawing and resultant damage to the bulbs it is a good idea to mulch with 4-6 inches of clean straw or leaves. Leave the mulch there until all danger of severe frost is over.

By planting those bulbs now you'll be rewarded with color magic next spring!

In Canada the laundry, dry-cleaning and dyeing business passed the \$100,000,000 mark for the first time in 1952.

How An Advertised Article Sold 15 to 1 Over An "Unknown"

Lit Brothers, Philadelphia department store, recently conducted a test to determine the selling power of advertising.

Simmons mattresses, a branded, advertised product, sold 15 to 1 over identical mattresses bearing a fictitious brand label which was unknown to the public.

The store then lowered the price \$5 on the mattress with the fictitious label. Simmons mattresses still outsold the "unknown" mattress by 8 to 1.

Later a \$10 differential was imposed. Simmons mattresses still outsold the "unknown" by 14 to 13.

Mr. Merchant... Ask Yourself This Question

"Can I afford to operate a business which is 'unknown' and which sells 'unknown' products?"

Maybe your products are just as good; maybe your store is just as good—or even better—than others. But the Philadelphia department store found that customers don't spend their time in finding out about your store and your products.

The product which tells them is the one that sells them. And the store whose name is a household word, made so by constant, consistent and honest advertising, is the one in "preferred position" by a score of 15 to 1.

Yes, good and honest advertising doesn't cost. IT PAYS!

THE VULCAN ADVOCATE

Carmangay

Mr. and Mrs. Guy Williams, of Chico, Cal. accompanied by two friends were visiting their brother Joe Williams.

Mr. and Mrs. Henry Rumison and family, of San Francisco, Cal., are visiting with Mrs. Rumison's mother, Mrs. Alma Lund.

Our sympathy is extended to Mickey Boner and family, on the death of his father, Charles Boner of the Champion District, which occurred in Gleichen recently. Mr. and Mrs. Boner and family attended the funeral which was held in Champions.

We are sorry to hear of the accident which happened to Ole Frenstad, but very glad that it was not more serious. When his son started up the truck it rolled back and caught him between the box and the garage door. Fortunately John was able to stop the truck before it might have been fatal. He sustained two broken ribs, and we hope that he will soon be fully recovered.

Glad to see that Evelyn Plourde is feeling better again after a severe infection which spread from a cold sore.

Cecil Burns of Calgary was a recent visitor at the home of his parents, Mr. and Mrs. Charles Burns.

Mr. and Mrs. Bob Miller and Leane of Calgary were holiday visitors at the home of Bob's parents, Mr. and Mrs. Kenneth Miller.

Mr. and Mrs. Stan Burwash and daughter of Calgary were week end visitors at the home of Stan's parents, Mr. and Mrs. Dave Burwash.

Marvin Anderson suffered a painful accident when he burnt his hands when soldering.

Mr. and Mrs. Tom Hilliard of Calgary, spent the weekend with his father and sisters, Mr. Jas. Hilliard and daughters.

Mr. and Mrs. Minty, Sr. and Annie spent Sunday in Taber.

Mr. and Mrs. Bob Minty of Lethbridge visited relatives here on Sunday.

Mr. and Mrs. Orville Blue and family visited his grandfather, Mr. Ruthledge, in Picture Butte on Sunday.

Mr. E. Nowlin was in Calgary on Saturday attending the funeral of his sister-in-law, Mrs. George Nowlin. Mrs. Nowlin is spending

a few days with her daughter Hazel in Champion.

Mr. and Mrs. Bill White and family spent the long week end in Creston, B.C., guests of Mr. White's sister and brother-in-law, Mr. and Mrs. Leonard McGinnis.

Dave McIntyre, Ted West and Benny White are at present in Red Deer. Dave and Benny are taking a course in refereeing Basketball and Ted is studying coaching.

Mr. and Mrs. M. Boner and Gail spent the week end in Calgary.

Slim Newsome of Coleman is spending a few days with Mr. and Mrs. Steve Volk.

Mr. and Mrs. Bill Risler and family of Lethbridge spent Thanksgiving with Mrs. Risler's parents, Mr. and Mrs. Gerald Miller.

Mr. and Mrs. John Hubka have announced the engagement of their youngest daughter, Dorothy, to Stephen, son of Mr. and Mrs. M. Ganger of Lethbridge. A shower is being held on Friday the 15th in the United Church basement for Dorothy.

Mr. and Mrs. Wallace McIntyre and family were Sunday guests of Mrs. McIntyre's sister and brother-in-law, Mr. and Mrs. Pedersen at Fort McLeod.

Mr. and Mrs. Walter Nielson spent Thanksgiving week end at Waterton Lakes Park and visited with Mr. and Mrs. Bill Sparkes.

Thanksgiving guests at the home of Mr. and Mrs. F. W. Ewing included, Mrs. Blanche Bond, Mr. and Mrs. Dick Service; Mr. and Mrs. Bob Niven and family and Mr. and Mrs. Tom Ewing and family, all of Lethbridge.

"Canning Questions"

Do you have some home canning problems. Who doesn't! I'm sure all of us at sometime or other have wondered why the canned raspberries were faded or why the corn turned brown. Below are listed some causes of home canning problems.

1. Floating fruit—is probably both over-cooked and too ripe. Try using a lighter sirup and just ripe fruit; allow sugar to stand on fruit before canning (particularly straw berries); precook firm fruits.

2. Faded food—sometimes caused by poor preparation, but of course some varieties lose color more than others. Prevent injury to berries, causing escape of juice; and store in a cool dark place.

3. Brown discoloration on canned fruit—this happens when air has not been removed from the fruit, either because too low a temperature was used or because of poor seal and faulty lids. Pre-cooking fruit according to hot-pack water bath method will help prevent this. Use standard processing time and be sure the jar is sealed.

4. Browned corn—is a result of overcooking, canning corn at poor stage of maturity, or using too much corn and not enough water in the jar.

5. Botulism in vegetables—may or may not have any odor, or taste or other signs of spoilage. A good growth of mold, soft texture and cloudy liquid may accompany botulism. It is caused by a soil born organism destroyed only at higher than boiling temperature when canning. Botulism is fatal unless the product is boiled when removed from the container. You should use a tested pressure cooker for canning all non-acid vegetables. To be on the safe side boil all home canned vegetables at a full rolling boil for a minimum of 10 minutes.

6. White sediment in vegetables—white particles settling out in the bottom of containers is probably due to hard water used. White sediment on peas or beans, may be due to overmature vegetables. Sometimes starch cooks out and gives the liquid a white appearance. White sediment in tomatoes indicates spoilage—it is caused by using a poor product and by cores present.

For safety in home canning use only recommended methods!

Current bulletins available from this office to help you at canning time are: "Home Canning of Fruits and Vegetables;" "Berry Preserves;" new recipes and sug-

gestions for the canning of berries; "Recipes for Using Wild Fruits."

WHO IS RESPONSIBLE FOR EDUCATION IN ALBERTA

Who is responsible for Education in Alberta? Does the B.N.A. Act require the Province to establish and finance schools? Many people firmly believe that such is the case. They are convinced that the Province is required to provide for the education of young people, and therefore should under-write the cost of such an undertaking. In effect, however the B.N.A. Act states that the federal government may not control education: its control must be left to the people of each province to exercise as they see fit. It is up to the people of Alberta to decide whether education is to be a matter for local, or for provincial control, or partly one and partly the other.

In practice the Alberta Government has adopted a middle course.

By such statutes as the Department of Education Act and the School Act, the legislature has created a Department of Education, with its Minister, on whom certain powers and duties are placed. These include responsibility for the preparation of courses of study, the selection of textbooks, the certification of teachers, the preparation and marking of departmental examinations, the financial assistance of local school authorities, and the provision of certain supplementary educational services. The Legislature, following long Canadian tradition, has also created local school authorities (divisional, district,

and county boards), to whom it has delegated certain duties and given certain powers. In general school boards are expected to provide and equip school buildings, to maintain them in operating condition, to appoint teachers and other employees, to provide transportation for pupils as needed and to requisition from municipal authorities much or most of the money needed for these services.

But whether the Minister of Education is approving the choice of a new text-book, or a local trustee is investigating a leaky school roof, it must never be forgotten that each is performing his function on behalf of the people he represents. The power they exercise is wielded as stewards for their fellow citizens. Thus, there appears the unavoidable conclusion that all adult citizens of Alberta are responsible for education. And from this, it follows that the quality of education depends, at least in part, on how well and conscientiously Alberta citizens perform the duties which civic responsibility demands.

Why should any person be responsible for the education of any children other than his own? The answer, of course, is that a modern democratic

people, for its continued existence as such, must be founded on an intelligent and informed electorate, on people who understand the meaning of democracy and who have the will, the energy, and the skills to put its principles into practice, and to make the best possible contribution to one another's welfare. In other words, democracy cannot continue to exist if a large part of the population are ignorant of or indifferent to their democratic rights and duties. Thus is established a fundamental principle in Alberta education; one of its purposes is to train all boys and girls to become effective citizens of our province and our country.

4-H Calf Clubs

4-H Calf Clubs are a part of the large international farm youth movement which now embraces some 18 countries throughout the world. In Canada as in a number of other countries the official emblem is a green 4-leaf clover with the letter "H" on each leaf to symbolize equal training of the 4-H's which stand for Head, Heart, Hands and Health.

The objectives of Calf Clubs are basically the same as for the other 4-H Clubs, which may be summed up as follows:

1. To develop pride in ownership.
2. To accept and discharge responsibility.
3. To develop a scientific attitude towards the farm and home.
4. To develop talents for greater usefulness.
5. To reach their fullest development as Canadian citizens.
6. To create better homes for better living and to unite parents and young people in a common interest.

October is the month that Calf Clubs are usually organized. This is because the calves are shown and sold as finished beef during the month of June, and we find that seven months is about as soon as the animals can be fitted for this purpose.

A club may be formed where there are 12 farm young people interested in feeding a calf, and who are between the ages of 12 and 22 years at the time of joining the club. Both boys and girls are eligible for club membership.

Calves selected for feeding this fall must be born during 1954. An April or March calf is considered about the right age to feed. Purchased calves are not required, but they should show good beef type, and be of one of the beef breeds. Calves of mixed dairy and beef breeding are not usually satisfactory. Often these calves look attractive while they are still with their mother, but the longer they are on feed the less desirable they usually become.

The club program commences with an organization meeting at which members are enrolled for the ensuing year, club officers appointed, and the Adult Advisory Committee selected. Most clubs hold monthly meetings, these may take the form of a short business meeting, combined with an educational talk or film and recreation or social activity. During the club year demonstrations are arranged, to give club members a chance to practise judging various classes of cattle, and to show them how to prepare their calves for the club show and sale. Educational tours and visits to places of interest are arranged as desired.

If there is any community that is interested in forming a 4-H Calf Club, we would be pleased to attend a meeting of those interested and do what we can to assist.

WEEDS INCREASE IN 1954

The 1954 season has been one of the most difficult in which to control weeds. In many areas wet weather prevented proper cultivation in the early spring and spraying later in the season. The result is a serious infestation of both annual and perennial weeds in the 1954 crop. The annual weeds are of course undesirable. However, the tremendous increase in Canada Thistle and Sow Thistle in Western Canada, particularly in Manitoba, constitutes a serious weed control problem.

Too Much Reliance on 2,4-D. The heavy infestations of both annual and perennial weeds that many fields are carrying this year indicate that many Western farmers are relying far too much on 2,4-D. In many cases, the attitude is "don't worry we'll get them next spring with 2,4-D". Then along comes a wet spring when spraying is impossible and weeds take over. Yes, 2,4-D is a most valuable ally in the fight against weeds. Each year thousands of farmers use 2,4-D effectively and profitably to control weeds on millions of acres of grain crops in Western Canada. However, in weed control, you just can't afford to put all your eggs in one basket.

Cultivation Still Important. Efficient and timely cultivation still has an important place in weed control—particularly in the control of perennial weeds such as Sow Thistle and Canada Thistle. Thorough cultivation started as soon as the crop is off, and carried on until freeze-up this Fall, will do a lot toward controlling the thistle menace.

Competitive Crops. Fall rye is an excellent crop with which to fight weeds. This crop, seeded about the middle of September following thorough cultivation, will help greatly to reduce the thistle infestation in 1955. A barley crop seeded early in the spring is also an effective means of fighting thistles.

Weeds increased tremendously this year. Give your weed control program serious thought and attention this Fall and be prepared to do your best to clean up on weeds in 1955.

Canadians roughly ate four pounds more bakers' bread each in 1952 than they did in 1951.

MEMO
TO ADVERTISERS

*The Hallmark
of Circulation
Integrity*

In the same way that STERLING on silver signifies a standard of known value, so is this A.B.C. emblem a symbol of FACTS about the circulations of newspapers and periodicals. It is the emblem of membership in the Audit Bureau of Circulations*, and is assurance to advertisers that the circulations of member publications are measured, audited and reported in accordance with the rigid standards that have been mutually approved and adopted by advertisers and publishers. Here's why our membership

in the A.B.C. is important to our advertisers and ourselves: At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough inspection and audit of our circulation records. The results of this exacting audit show: how much circulation we have; where it goes; how it was obtained; and many other FACTS that advertisers need as a sound basis for their advertising investments. This audited information is published by the Bureau in easy-to-read A.B.C. reports which are available to our advertisers on request.

*The Audit Bureau of Circulations, of which this newspaper is a member, is a cooperative, nonprofit association of 3,575 advertisers, advertising agencies and publishers. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation; rules and standards for auditing and reporting the circulations of newspapers and periodicals.
